The great **love** for our **land** is what drives us to dare more and imagine new possible developments, conciliating modern **needs** with ancient wisdom.

New, natural and **sustainable** products in line with the need for a **healthy and balanced** diet that does not give up on **taste**:
that's what makes Pralina

Discover our project **Trace the Good(nes)s**, production chain traced from seed to table, created thanks to the implementation of **Blockchain** technology.

PRALINA® Srl (Production of Natural Foods) was born of a **dream:**
to preserve and valorise
the resources of our region,
Salento, the extreme strip of Apulia.

The goods of the **land** and the desire to safeguard and share them is what lead to the idea of creating a company that could **transform** local raw materials into **saucers, condiments and creams** that are ready to be enjoyed.
